PROFESSIONAL SUMMARY

Final-year B.Tech student in Electronics and Computer Engineering who has hands-on experience in AI/ML, LLM-based systems, and full-stack software development. Built production-ready applications including an AI chat assistant, a real-time voice assistant, and a cloud-deployed engagement tool for senior citizens. Demonstrates a strong foundation in data structures, algorithms, OOP, operating systems, and computer networks, with practical experience in Python, backend development, REST APIs, and NLP.

EDUCATION

Bachelor of Technology – Electronics and Computer Engineering	2022 – 2026
Dronacharya Group of Institutions, Greater Noida	74.83%
Senior Secondary (Class XII) – Assam Higher Secondary Education Board	2020 – 2022
B. Borooah College, Guwahati	73.2%
High School (Class X) – Assam Board of Secondary Education	2020
Aryan Academy English Medium High School, Guwahati	79.67%

WORK EXPERIENCE

Frontend & GenAI Intern	Jun 2025 – Aug 2025
AgriDoot, NovosEdge Pvt. Ltd.	

- Built a **responsive Developer Console UI** for the AgriDoot product, cutting developer onboarding time by approximately **30%** and improving accessibility across **5+ developer-facing workflows**.
- Integrated **RESTful API communication** across **6+ endpoints** between frontend interfaces and backend services, reducing manual integration effort for the engineering team.
- Developed the **Gyan Fatafat web scraping module**, automating collection and preprocessing of **1,000+ structured data records** per run to support LLM training pipelines.

PROJECTS

Project A – AI Chat & Voice Assistant	Jan 2026
[Live Link]	

- Architected an **AI-powered chat and voice assistant** leveraging **Llama 3.3 via the Groq API** for low-latency, context-aware conversational responses.
- Implemented a **real-time voice interaction pipeline** using **Python, SpeechRecognition, ElevenLabs TTS, and Edge-TTS**, enabling **multilingual support across 2 languages**.
- Established **Clerk-based authentication, persistent chat storage via Supabase (PostgreSQL)**, and reliable cloud deployment on Vercel.

GUDPALS – Senior Citizen Engagement Platform	Jul 2025
[Live Link]	

- Launched a **bilingual (English/Hindi) accessibility-first web application** for senior citizens, incorporating live sessions, learning resources, and travel planning tools.
- Configured **Clerk-based authentication and Supabase real-time data workflows** to ensure robust and responsive user experiences.
- Deployed the application on **Vercel** with CI/CD pipeline support, ensuring production reliability and uptime.

GreyNote – Anonymous Messaging Platform	Mar 2025
[Live Link]	

- Delivered a **privacy-first anonymous messaging service** allowing message receipt via **shareable personal links**, with no sender login required.
- Engineered **encrypted backend logic** for message storage, retrieval, and delivery with low latency.
- Shipped the application on **Vercel** with a clean, text-focused UI optimized for usability and engagement.

Instagram Sentiment Analysis System	Nov 2024
--	----------

- Constructed an **end-to-end NLP sentiment analysis tool** using **Python, NLTK VADER, and Selenium** to scrape and classify Instagram comments (posts, reels) as positive, neutral, or negative, with subprocess-based execution to handle dynamic page loading.
- Produced an **emoji-aware hybrid scoring model** (70/30 VADER/emoji split, 40+ emoji mappings) for Hindi/Hinglish sentiment detection, with results visualized via an **interactive Streamlit dashboard** featuring Plotly charts, WordCloud, and a Pandas-powered data browser.

TECHNICAL SKILLS

- Programming Languages:** Python, C, C++, SQL
- Web & UI:** HTML5, CSS3, Tailwind CSS, Streamlit
- AI / ML / NLP:** Machine Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Prompt Engineering, NLTK, VADER Sentiment Analysis, Groq API, ElevenLabs TTS

- **Backend & Cloud:** REST API Integration, Supabase, PostgreSQL, MySQL, Clerk Auth, Vercel, Netlify
- **Developer Tools:** Git, GitHub, VS Code, Postman, Google Colab, MATLAB, Arduino IDE
- **Core CS Concepts:** Data Structures & Algorithms, Operating Systems, Computer Networks, Object-Oriented Programming (OOP)

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Model Context Protocol – Anthropic (Mar 2026)
- AI Fluency Framework & Foundations – Anthropic (Mar 2026)
- Artificial Intelligence Fundamentals – IBM SkillsBuild (Feb 2026)
- Python Essentials 1 – Cisco Networking Academy (Jan 2026)
- CCNA: Introduction to Networks – Cisco Networking Academy (Oct 2025)
- Introduction to Cybersecurity – Cisco Networking Academy (May 2025)
- Innovation Design & Entrepreneurship (IDE) Bootcamp – BHU (AICTE, MoE) (April 2026)
- Innovation Design & Entrepreneurship (IDE) Bootcamp – IIT Jammu (AICTE, MoE) (Feb 2025)
- NSS Volunteer – 27th National Youth Festival, Government of India (Jan 2024)
